**REQUIREMENTS:**

- Minimum Bachelor of Architecture
- Proficiency in Revit and Sketchup
- Demonstrate excellent design, technical, organization and communication skills
- 5+ years of professional experience
- Desire to be part of a TEAM
- Embrace life / work balance culture

Intrinsik is a community focused firm founded in 1999 as a one person, garage based design-build company. Intrinsik has since evolved into a sustainable and growing multi-person firm, currently including 8 licensed Architects and 2 Land Use Planners providing professional Architecture and Planning services throughout Montana and the nearby region. Over the past +20 years our TEAM has focused our efforts on building quality communities and offering creative design solutions for all project types including commercial, mixed use, single family residences, affordable and market rate multi-unit residences, schools and master planned neighborhoods.
